PV207 Teamwork Project

Grocery delivery service - BuyBread

Team lead: Radim Lipovčan

Grocery delivery service - BuyBread

- Goals
    - become most reliable grocery delivery service on the market
    - improve and optimize supply chain processes to establish zero waste approach
    - keep inventory fresh
    - support local suppliers
- Most important processes
    - Order creation
    - Manage warehouse
    - Create promotions
- Our platform - jBPM
- We did well
    - we worked as a team and created a complex project
- We did not achieve
    - implement intermediate error events
